Reimbursements under Turien & Co. supplementary insurance policies Jong, Fit & Vrij, Gezin and Vitaal packages

* FIT & VRIJ PACKAGE

An annual care credit of € 1,000 applies to the Fit & Vrij Package. This € 1,000 care credit can be spent on care listed under the Fit & Vrij 'part of the care credit' column. Within this care credit, a maximum amount of € 150 per 3 calendar years is allocated for glasses and/or contact lenses and of € 450 per calendar year for dental care. Additionally, a maximum amount per day or treatment or a personal contribution applies to a small number of reimbursements. These amounts are listed in this insurance cover overview. If you do not use up the full amount for glasses and/or contact lenses and/or dental care, or none of it at all, you can use the amount remaining for other care that is part of the care credit in the Fit & Vrij Package. You cannot do this the other way around.

This Overview of Reimbursements is a condensed overview of the reimbursements for 2016. At the time that this Overview of Reimbursements was drawn up, not all resolutions in respect of legislative amendments passed by the government and the Dutch Healthcare Authority had been announced. This has consequences for a number of personal contributions. You can find more detailed information about these in the insurance conditions. You can also request information by telephone. No rights can be derived from this reimbursement overview.
